

N. San Diego/Temecula Valley CREIA Toolbox EnergyCheckup™ Primer

4 CEC's
just \$50!

EnergyCheckup™ Primer Seminar: October 27, 2008 (morning)

Learn How to Provide All These Valuable Energy Audit Services:

- Add value to the traditional home inspection with energy audit services
- Learn necessary energy modeling requirements and visual inspection techniques
- Provide Home Energy Ratings for single-family, multi-family, and mobile homes

Plus... ADD ENERGY RATINGS & EARN \$50 MORE PER HOME WITHOUT RAISING YOUR RATES!!

This seminar is designed as a fast-paced introduction to EnergyCheckup™ Home Energy Ratings and will introduce all the basic steps required to complete an EnergyCheckup audit of an existing home. Attendees will learn how to install the free EnergyCheckup software, how to determine building orientation, how to calculate square footage, how to use a psychrometer, and other basic energy modeling requirements. Simple visual energy inspection techniques will be demonstrated (building envelope, glazing, heating and cooling systems, hot water heaters, lighting, appliances, etc.).

This course is the perfect introduction for experienced home inspectors and the perfect refresher for previously trained EnergyCheckup inspectors or HERS raters. Bring your laptop or tablet computer and you will receive free software and marketing materials. Qualified course graduates are eligible to be paid an incentive of \$50 for every valid EnergyCheckup inspection they complete in selected program areas.

INSTRUCTOR: Thomas Conlon, Principal / Consultant, is one of the country's leading energy efficiency experts specializing in building energy simulation and energy ratings by home inspectors. Founder of GeoPraxis and owner of EnergyCheckup™, he currently directs the EnergyWise™ Program administered by San Diego Gas & Electric Company.

The EnergyWise Program pays qualified inspectors a **\$50** incentive for every EnergyCheckup™ they perform in selected program areas. Provide your clients and real estate agents with free energy-saving compact fluorescent lamps and other benefits. This is the course you've been waiting for!

When: Monday, October 27th, 2008, 8:00am -11:30am

Where: California Center for Sustainable Energy, 8690 Balboa Avenue, Suite #100, San Diego
