

N. San Diego/Temecula Valley CREIA Toolbox EnergyCheckup™ Field Methods

4 CEC's
just \$50!

EnergyCheckup™ Training Seminar: October 27, 2008 (afternoon)

When: Monday, October 27th, 2008, 1:00pm -5:00pm (lunch served 12:00 – 1:00pm)

Where: California Center for Sustainable Energy, 8690 Balboa Avenue, Suite #100, San Diego

Cost: \$50.00 (paid to co-sponsoring chapter). Price includes lunch, free software, brochures, and more!

What to Bring: Laptop or tablet computer with AC adapter (MS Word 2003 or higher recommended)

Prerequisite: Must already have an EnergyCheckup account or take "EnergyCheckup Primer" same day (or demonstrate comparable energy rating experience and call to receive prior consent of instructor)

Registration: Register online at <http://www.energycheckup.com/content/InspProgram.asp>

Questions: Call 888-262-9009 x202 for more information

Learn How to Use Your Time Wisely to Produce the Best Energy Inspection Estimates You Can:

- Learn practical time-saving techniques to produce more accurate EnergyCheckup™ results
- Discuss your own case studies audits and share best practices for completing the "Audit Data Sheet"
- Identify key differences of Stand Alone vs. Time of Sale energy inspections
- Find out how to de-code equipment model numbers to determine output capacity and efficiency factor
- Learn advanced methods for estimating the electricity use of residential motors (pools, wells, etc)

Attendees will learn how to properly estimate heating, cooling and water heating system output capacities and efficiency factors, how to perform a simplified "temperature split" procedure (for quickly assessing cooling system performance), and how to self-calibrate an inexpensive digital psychrometer. This class will also introduce simple new methods for estimating the electricity consumption of pool, well, and other common types of residential motors. The use of inexpensive data loggers will also be demonstrated.

This seminar is the perfect follow-up course for experienced EnergyCheckup inspectors who have already performed energy inspections for a variety of clients. Bring your laptop or tablet computer so you can follow along, and receive electronic copies of the new motor analysis tool and new marketing materials.

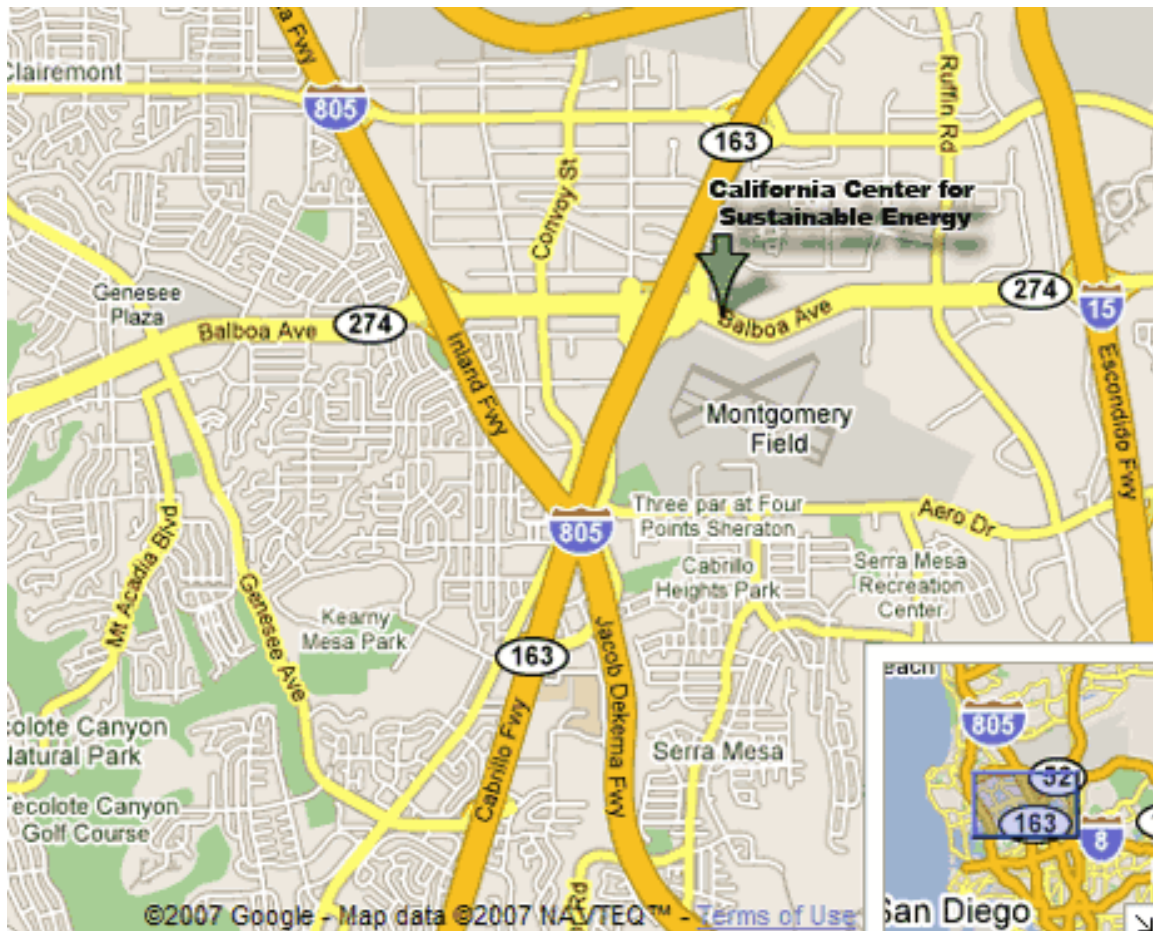

INSTRUCTOR: Thomas Conlon, Principal / Consultant, is one of the country's leading energy efficiency experts specializing in building energy simulation and energy ratings by home inspectors. Founder of GeoPraxis and owner of EnergyCheckup™, he currently directs the EnergyWise™ Program administered by San Diego Gas & Electric Company.

The EnergyWise Program pays qualified inspectors a **\$50 incentive** for every EnergyCheckup™ they perform in selected program areas. Provide your clients and real estate agents with free energy-saving compact fluorescent lamps and other benefits. This is the course you've been waiting for!
